***RESTRICTION***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-19, drawn to a circuit for compensation luminance of an emissive display, classified in class 345, subclass 46.
- II. Claims 20-29, drawn to a receiver for receiving digital video signals, classified in class 348, subclass 553.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each one of the invention recited in group I and group II are separately usable in a system not having the other.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

-Claim 13 should be depended on claim 11, not claim 1.
